-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1623

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 12, 16, 18, 20, 21 and 26-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Richards (WO 9603150A1)

Richards discloses the claimed process of treating an inflammatory bowel disease such as diverticulitis and irritable bowel syndrome (page 8, lines 23-30) with galactomannan (page 4, lines 9-10) and/or arabinogalactan (page 6, lines 18-24).

Claims 12, 18, 21 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Kiliaan et al (WO 01/33975 A1).

Kiliaan et al disclose the claimed process of treating an inflammatory bowel disease (page 4, lines 21-28) with galactomannan and/or degraded galactomannan (page 1, lines 4-6).

Claims 12, 14-22 and 26-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Richards (WO 9603150A1) or Kiliaan et al (WO 01/33975 A1) in combination with Mehansho et al (U.S. Patent No. 6,706,292) or Garti et al (U.S. Patent No. 5,847,109).

Each of Richards and Kiliaan et al discloses the treatment of a bowel disease with arabinogalactan and/or galactomannan as stated above but does not disclose the use of arabinogalactan and/or galactomannan in combination with a milk protein or soy protein. However, since Mehansho et al disclose the combination of arabinogalactan n combination milk or soy protein for prevention of constipation (column 2, lines 12-35) and Garti et al disclose the administration of galactomannan in combination with ice cream (which contains milk protein) for regulating bowel movement (column 3), it would have been prima facie obvious to a person having ordinary skill in the art at the time of the present invention to add milk and/or soy protein to compositions disclosed by Richards or Kiliaan et al because the results achieved by such a combination would have been expected.

Applicant's arguments filed September 9, 2009 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on July 2, 2009 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elli Peselev whose telephone number is (571) 272-0659. The examiner can normally be reached on 8.00-4.30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shaojia Jiang can be reached on (571) 272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
